

## President's Message

The advice contained herein is advice I have given before. Like all advice, it can be taken or left, but it is one of the more commented upon pieces of advice I regularly send out. To wit: we are fast approaching two weeks of winter break. And, yes, it is a break. I suggest, as I have suggested before, that you spend this week pretending the break did not exist. Spend this week planning, copying, gathering materials, arranging your room etc., as if Monday, December 25, were the next day of school. Of course it isn't, so on Friday, December 22, with all your prep work done, at day's end, place your bag on your desk, grab your keys and walk out the door, ready for two weeks of regeneration. In recent years I have taken to leaving a note to my future self on my desk explaining what the plan is on that first day back; in this way I really, truly did not have to think about school for two weeks. We work in a highly stressful occupation; for both physical and mental health, we need these breaks to recuperate. I wish you all a restful and/or energizing break. Remember to be well.

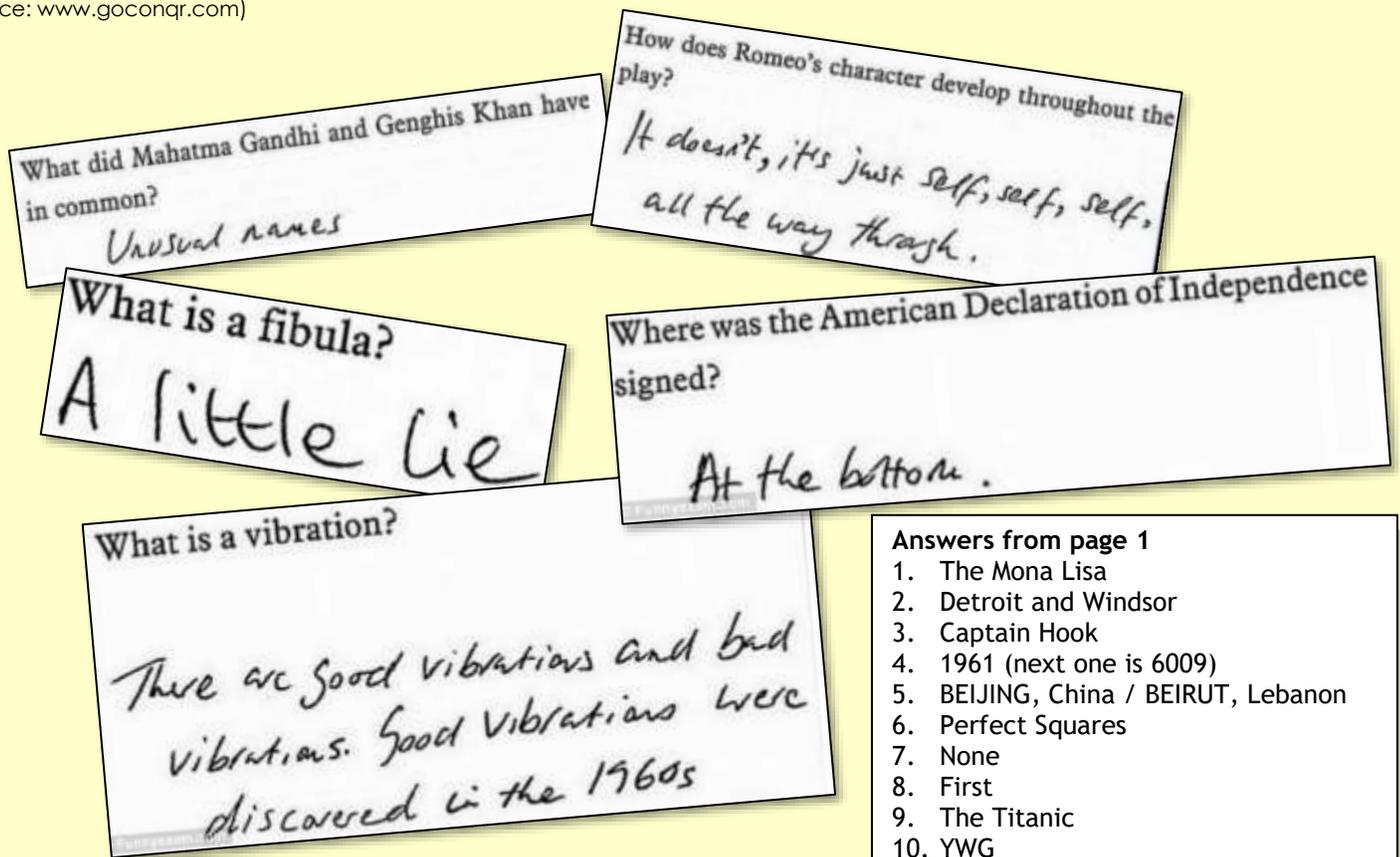

## Quiz Night Warm Up
